

#7 CIRCUS TRUFFLE

CIRCUS TRUFFLE (Kirchhoff 2009) 26" – 30" E Re Ex Ev Fr 6". We love this tailored orangegold Double with red eye and red flecked edges! The throat is intense yellow to green. An Early Morning Opener with full, consistent petaloid form. The texture is smooth and dusted gold. A strong grower in Florida and Kentucky, and reblooms heavily in both zones 6 and 9. The scapes are strongly recurrent with 3 – 4 way branching and 24 or more buds. Fertile both ways. 92% Double. \$125.00 DF hybridizer's price. Raffle is for a double fan.

#8 VANILLA GORILLA

Vanilla Gorilla (Huben 08) 44 M 8, Cream Self, Dor Dip Ufo (Jerry's Whirligig * Magic Of Oz) This daylily is named for [Snowflake, the albino gorilla](#), who recently died. This UFO measures about 8 inches, and has been drawing a great deal of attention at Carl Harmon's garden the past four years. 5 to 6 way branching, 20 to 24 buds. Pod and pollen fertile. This was a fun cross, partly to test the pod fertility of the enormous [Jerry's Whirligig](#), and partly to see what happens in the way of large offspring. Like Jerry's Whirligig, Vanilla Gorilla has wide petals in a cascade form: it reminds me of knuckle walking with the massive arms of a gorilla. Now, you could say some daylilies knuckle walk because the scapes fall, but Vanilla Gorilla's scapes stay upright. I'm so focussed on my reblooming goals, that I essentially ignored this one, and it was rescued by Carl. Let this be a lesson to new hybridizers: trust other people to evaluate your plants and tell you what else is good. Introductory price is \$75 for a single fan. Available only through [Harmon Hill Farm](#). Raffle is for a single fan to be shipped this fall.

#9 WHACKY QUACKY

WHACKY QUACKY (D. Eller 2009) Tet, 24", 4.5", Early, Evergreen, Reblooms. Cream With Burgundy Eye And Edge With Outer Gold Edge; Green Throat. 3 way Branching, 15 Buds. (Sunday Sandals x Braided Edges). Hybridizer's price is \$100.00 for a single fan. This raffle is for a single fan.
